

FOUNDATION ASSEMBLY INSTRUCTIONS

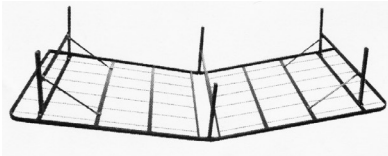

ASSEMBLE THE FOUNDATION

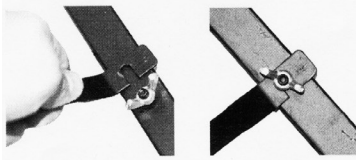

- 1) Take all components of the box and position them on the floor.

NOTE: For twin size there is only one piece.

- 2) Unfold each half and lay flat.

- 3) Raise all six legs to the upright position.
- 4) Each of the four end legs have separate support arms.

- 5) Rotate the support arms to hook onto the bolts and tighten with installed wing nuts.

NOTE: The two center legs do not require wing nuts.

- 6) Tighten the wing nut until secure. Repeat the process for the remaining three end legs, making sure all wing nuts are tightly secured.

ATTACH THE TWO SIDES TOGETHER

- 7) Flip the base over to stand upright.
- 8) Follow steps 1 through 6 to assemble the other base unit.

- 9) Position the two halves together with keyhole locked in place
